1240 South Lumpkin St.
Athens, GA 30605

Register (with \$100 fee) by October 23, 2009!
<http://www.healthyhomestraining.org/UGA.htm>

**You may choose to take the
Healthy Homes Specialist Credential
exam at the end of the course.**

If you visit homes to provide health or inspection services of any type, you will benefit from the Essentials for Healthy Homes Practitioners Course. The training will help you understand the connection between health and housing and how to take a holistic approach to identify and resolve problems that threaten the health and well-being of residents.

The training complements hazard-specific training in lead-based paint, radon, mold, pests, and asbestos. It identifies root causes of health problems in a home and links them to seven principles of healthy housing: keep it dry; keep it clean; keep it pest-free; keep it ventilated; keep it safe, avoid contaminants; and maintain the house. Course participants will have a better understanding how to collaborate to make healthy homes a reality in their community.

Who Should Attend?

- * Environmental Health Professionals
 - * Home Inspectors
 - * Public Health Nurses
 - * Energy Auditors
- * Weatherization Specialists
- * Lead-Based Paint Professionals (risk assessors, inspectors, abatement supervisors)
- * Health and Housing Advocates
 - * Property Managers
 - * Pest Control Operators
 - * Housing Educators
