I'm excited about this year's corn short course and annual meeting of the Georgia Corn Growers Association. I hope you will plan to attend and bring a fellow grower.

The sessions will focus on reducing input cost in 2009. Research and extension scientists are scheduled to discuss projects funded by your checkoff dollars and share their advances in corn production and technology. Exhibitors will also be there to provide up-to-date information on various products. Awards will be presented to the 2008 winners of the Georgia High Yield Production Efficiency Awards program during lunch.

Door prizes will be given away at the end of the day's program. Applications for credits for pesticide licenses and certified crop advisors hours have been made.

The corn short course is sponsored by the Agricultural Commodity Commission for Corn, The University of Georgia and Cooperative Extension Service. We hope you can attend January 20, 2009 at the Tifton Campus Conference Center in Tifton for this excellent educational opportunity.

Dewey Lee  
Extension Agronomist-Grains
