2007 Food Contest Directory
Dear Flavor of Georgia Food Contest Directory User:

Our goal with the first annual Flavor of Georgia food contest is to highlight new and innovative food products and businesses that use Georgia agricultural commodities. Individuals and companies across the state have submitted products for judging by a panel of experts in the food industry. Finalists from each of the eight categories are marked with a star by their product. The overall winner for the year will be named on March 20, 2007, at Ag Awareness Day in Atlanta.

It is our desire that the Flavor of Georgia contest helps small entrepreneurs, who are seeking to either enter the food processing industry or expand an existing line, to receive good publicity and exposure. We want the interaction between food processors, brokers, retailers and others involved in the food marketing distribution channels in Georgia to see the great products that these businesses and individuals have to offer, and use the 2007 Flavor of Georgia Food Contest Directory as a useful tool to promote Georgia’s dynamic food industry.

Throughout the following pages, you will find the 2007 Flavor of Georgia Food Contest Directory. Listed with each product is information on our contest participants. You may also find the directory online at www.caed.uga.edu.

The University of Georgia Center for Agribusiness and Economic Development, UGA College of Agricultural and Environmental Sciences Department of Food Science and Technology, Governor Sonny Perdue’s Agricultural Advisory Commission and the Georgia Rural Development Council are proud to sponsor the first Flavor of Georgia food contest.

We thank you for your participation. Enjoy a taste of what Georgia has to offer.

Dr. John C. McKissick
Director

Flavor of Georgia 2007
The Center for Agribusiness and Economic Development

The Center for Agribusiness and Economic Development is a unit of the College of Agricultural and Environmental Sciences of the University of Georgia, combining the missions of research and extension. The Center has among its objectives:

To provide feasibility and other short term studies for current or potential Georgia agribusiness firms and/or emerging food and fiber industries.

To provide agricultural, natural resource, and demographic data for private and public decision makers.
