On November 13-15, 2017, The Cold Weather Management Workshop will be conducted at the Oconee County Civic Center in Watkinsville, Georgia, a few miles from the University of Georgia, Athens campus.

This intensive training program has been specifically designed for those who want to learn more about the design and management of modern poultry houses. The workshop consists of lectures as well as hands on group exercises designed to help attendees gain a firm understanding of the principles behind cold weather poultry house management.

**Webinar Information:**
A webinar has been established for industry personnel that wish to participate in the workshop online. During the workshop, you will be able to hear and see the presenters, participate with questions, and see any visuals that are presented.
