Responsibilities

Research responsibilities focus on the economic evaluation of federal and state policies affecting agriculture. The research is aimed at: (a) identifying the farm, trade and natural resource problems, (b) identifying relevant policy alternatives as solutions to the problems and (c) assessing the economic consequences of alternative agricultural policies.

Instructional responsibilities include teaching undergraduate courses on economic theory of the firm, economic theory of the aggregate economy, and agricultural policy and graduate courses on agricultural policy, graduate research, and masters theses and Ph.D. dissertations.
