Midterm Course Evaluation

In efforts to encourage productive communication between instructors and students, you are being given the opportunity to provide your instructor feedback and constructive criticism about the course in which you are currently enrolled. Unlike end of course evaluations, this is an opportunity for you to provide valuable information to your instructor that may aid him/her in making specific improvements in the teaching of your class this term. Please keep in mind that your professor is the only person who will view comments you make on this evaluation. Make sure your suggestions and comments are thorough, constructive, and reasonable.
