CHEROKEE COUNTY ANIMAL CONTROL: 678-493-6200

The [Cherokee County Marshal's Office](#) is responsible for animal control in Cherokee County.

Animal Control Officers are dispatched to answer calls pertaining to:

- animal bites
- stray animals
- violations of local animal ordinances
- **Primarily these calls are for the handling of domestic animals.**

*A good wildlife control operator will take his time to find the source of the problem. A great one will also educate you the homeowner about the animal and how it gained entry, as well as potential entry points and how to correctly repair these areas. As always, it is a good idea to get 2 or 3 estimates to do this type of work before hiring any company.
