

NO-TILL PASTURE PLANTING SERVICE

No till planting helps to reduce soil loss, protects water quality, reduces energy consumption, while protecting the existing cover in your pasture. No-till plants through the existing forage crop, allowing better seed to soil contact for improved germination and protection of the soil.

The Rolling Hills RC&D Council provides this service to landowners through a custom planting service in partnership with Taylor Farm Supply. This service is offered for the landowner who needs to oversee small acreage or does not have a tractor to rent and operate a no-till drill themselves.

FEES:

Planting- \$25/acre (10 acre minimum)

Set up- \$25 set up fee

Mileage/Hauling- \$2/mile (round trip)

TO SCHEDULE SERVICE CONTACT THE NO-TILL OPERATOR BELOW:
