

# Mac's Field Guide Of Good And Bad Garden Bugs Of The Southeast

This is the perfect insect guide for residents in the southeast. This is a two-sided plasticized card which illustrates most of the common insects found in the garden. With this one card design its easy and intuitive with good/beneficial bugs on one side and bad/destructive on the reverse side. Best of all it is practically indestructible and can be carried anywhere without worry. It is one of the best guides to identify common insects. These plasticized cards hold up much better than regular laminated cards. So they are the perfect identification guides for field trips, garden identification,

and/or other extreme uses. Its flat shape means one can go under pack strap or deck cord. Flat sheet measures 7x11.5 inches. Card is printed in USA.

Cards may be purchased from a member of the Cherokee Master Gardeners, at the Cherokee County Extension Office, or at a Cherokee County Master Gardener's Plant Clinics. Or Email :
