Become a Georgia Certified Landscape Professional

GCLP is a voluntary testing program that certifies landscape professionals who have mastered a thorough knowledge and understanding of the skills required to be successful in the industry.

GCLP is endorsed by the Georgia Green Industry Association, Georgia Turfgrass Association and the Metro Atlanta Landscape & Turf Association. It is officially recognized by the Georgia Department of Agriculture.

Benefits of being a Georgia Certified Landscape Professional:
- Customers will recognize your certification as a mark of quality.
- ACC Extension and the Water Conservation Office will promote the use of GCLP professionals to the public.
- You will gain special access to graduate resources and continuing education.

The 2014 GCLP Training Program:
The ACC Water Conservation Office and ACC Extension are offering a GCLP Training Program to prepare landscapers for the written and hands-on exam. The written exam will be administered on the last day of class. The hands-on exam will be held in March 2015 at Gwinnett Technical College.
