

Project Area Selection

The Project Achievement area or topic selection is underway in Gwinnett. For a description of each area go to www.georgia4h.org, click on **Activities & Events** in the left menu. On the opening page, scroll down the center under **Core Programs** and click on **Project Achievement**. On the new page center area, click on **Cloverleaf Project Objectives**. The Cloverleaf competition level is for children age 9 through the end of the 6th grade.

The information on each project area is listed alphabetically by project at the end of a lengthy introduction. Be prepared to give a reason why the projects you chose are perfect for you. The popularity of certain topics does increase the work needed to do well in those areas.

We are allowed to take 3 youth per topic. So, if you are uncertain about a topic you would be interested in, please call Ms. Rogers at the 4-H Office. 678.377.4010.

Project Achievement Qualifying Topics:
