

## 2009 Child Care Provider Trainings

Date	Description
April 7	Music in the Early Childhood Setting
May 21	How to Include Movement in the Early Childhood Setting
June 15	<p><b>Make Snacks Healthy and Fun</b></p> <p>This class will focus on the importance of snacks in a child's diet, how to plan and serve healthy snacks and nutrition education to share with children. You will have the opportunity to make a snack and taste others.</p>
July 27	<p><b>Children as Scientists</b></p> <p>This class will help you teach children to identify problems, make predictions, provide opportunities for experimenting, followed by seeing results of an experiment, and how to express what they see and do. These scientific methods are great learning tools for youngsters! You will leave with some science experiences you can put into action in your classroom!</p>
August 25	Creating a Healthy Child Care Environment
September 28	Time Management Strategies
October 6	Domestic Violence
November 3	Healthy Practices/Happy Smiles
